The Proof Found.—We frequently hear it asked, what stronger evidence can be produced than that offered in favor of Porter's Oriental Life Liniment, when hundreds of the most reliable and disinterested men in the whole country, who are in the habit of using it almost only in their families, and after thoroughly testing its virtues in a variety of cases they unanimously pronounce it a valuable and saferemedy. This is certainly strong evidence. But, if you are afflicted, get a twenty-five cent hottle, and use it according to directions, and it will do more to convince you of its utility than a whole ream of certificates. The object of the combined movement of the army and the clergy was the overthrow of the government and the re-establishment of all the section of government and the re-establishment of all the ecclesiastical privileges.

This effort having proved abortive, the clergy will probably be di couraged from making another. You are aware that by the haw herdo the tenants have the privilegs during three months of purchasing the property on which they live, in default of which the property will be sold by auction to the highest bidder. The three months expire on the 25th of September. Thus far the law has been complied with in the interior rather than the Capital, but I have every reason to believe that the sales will be attended by a large number of purchasers.

The terms of the proposed sale cillow the clergy to dispose of their property at private sale. This is a fault, for the clergy might abuse the privilege by making pretended sales,
